

On April 14th, after reviewing CBD's NOI and EarthJustice's amended NOI, I called David Castanon at the LA District and left a voicemail ensuring him that the NOI's are incorrect and that we have not filled any washes covered by our 404 Permit.

I followed up with a text message on April 15th: "Hi David, I left you a voicemail last night. Please let me know if you or the Col have any questions."

He responded later that day: "No questions at this time. I've been tied up with other matters the last couple days. And a lot of staff are out today. Will check in with you next week."

On April 15th, I left a voicemail with Tori White (South Pacific Division) ensuring her that the NOI's were wrong and that we have not filled washes covered by the 404 Permit.
